## Gross Profit

For the period ended March 31, 2017, the Group generated gross profit of $\boldsymbol{P} 2.1$ billion. Gross profit margin for first quarter of 2017 was at $48.3 \%$ as compared to $50.5 \%$ during the year ago period. Gross profit margin during the first quarter of the year was comparable to gross profit margin during the third quarter of 2016, which was at $48.2 \%$. Both the first and third quarters of the year are relatively lower gross margin periods when the Group conducts the bulk of its end of season sales.

## Operating Expenses

For the quarter ended March 31, 2017, the Group's operating expenses amounted to P1.7 billion, a decrease of $7.3 \%$ as compared to the year ago period. Operating expenses as a percentage of revenue were at $40.5 \%$ as compared to $43.1 \%$ during the year ago period.

The decrease in operating expenses reflects the impact of the Group's store consolidation program as well as the Group's focus on maximizing scale and cost efficiencies.

Selling and distribution expenses for the period was at $\mp 1.5$ billion, a decrease of $7.2 \%$ compared to the same period last year. The decrease in selling and distribution expenses were primarily driven by decreases in the following: depreciation and amortization expense, which decreased $16.9 \%$ to $\ngtr 259.1$ million; (b) personnel expenses, which declined by $9.7 \%$ to $\ngtr 253.4$ million; and (c) rent expense, which decreased by $1.6 \%$ to P518.0 million.

As a result, selling and distribution expense was at $34.9 \%$ of revenues, comparing favorably to $37.1 \%$ during 1Q 2016.

General and administrative expenses decreased $7.2 \%$ to $\ngtr 236.8$ million. Decreases in general and administrative expenses were driven by decreases in personnel expense which decreased $9.3 \%$ to $\mp 96.3$ million and supplies and maintenance expense which decreased $61.6 \%$ to $\nexists 5.5$ million.

As a result of the foregoing, operating income for the period was at $\mathcal{P} 332.4$ million equivalent to an operating margin of $7.8 \%$ as compared to $\mathcal{P} 320.0$ million and an operating margin of $7.4 \%$ during the same period last year.

## Other Income (Charges)

For the period ended March 31, 2017, the Group incurred other charges of $\mathcal{P} 88.6$ million, a decrease of $21.3 \%$ as compared to the year ago period. The decrease in other charges is primarily attributable to a decrease in interest expense, which decreased by $38.8 \%$ to $\mp 50.3$ million, from $尹 82.3$ million in 2016, as a result of lower debt levels during the period, as well as a decrease in the share in net losses of joint ventures.

The Group's share in the losses of joint ventures was at $\boldsymbol{P} 20.5$ million as compared to $₹ 57.9$ million during the year ago period. The decline in losses of joint ventures was a result of a $29.0 \%$ decline in the Group's share of FamilyMart losses to $\operatorname{P} 20.8$ million, as well as the absence of Wellworth operating losses, following the sale of Wellworth's operating assets in March of 2016.

In relation to the Group's store rationalization program, the Group booked write-offs on disposals of property and equipment of $\mathcal{P} 29.9$ million during the first quarter. These reflect write-offs of partially depreciated leasehold improvements of closed stores.

## Provision for Income Tax

For the quarter ended March 31, 2017, provision for income tax was $P 108.9$ million. The Group's effective tax rate was $44.7 \%$ as a result of non-tax deductible expenses such as the Group's share in the net losses of the FamilyMart joint venture. The Group also wrote-off P723.6 thousand of expiring net operating loss carry overs (NOLCO), which is also reflected under provision for income tax.

## Net Income

As a result of the foregoing, net income during the first quarter of 2017 was at $\mathcal{P} 134.9$ million, an increase of $11.0 \%$ as compared to the same period last year.

As of March 31, 2017, prepayments and other current assets were at $\mathcal{P} 1.4$ billion as compared to $P 1.2$ billion at the end of 2016. The increase was due primarily to an increase in supplies inventory to $\mathcal{P} 468.7$ million from $\operatorname{P} 344.2$ million as a result of purchases of store and head office supplies which will be used throughout the year, an increase in prepaid tax to $\boldsymbol{P} 73.2$ million, and an increase in input VAT to $\boldsymbol{P} 316.5$ million. These increases were offset by a decrease in advances to suppliers to P228.9 million, representing advance payments for merchandise inventory.

As of March 31, 2017, other noncurrent assets were at $\mathcal{P} 114.8$ million as compared to $\mathcal{P} 103.9$ million at the end of 2016. This was due primarily to an increase in miscellaneous deposits to $P 49.3$ million which pertain to deposits with contractors for the construction and renovation of stores.

## Short-term Loans Payable

As of March 31, 2017, short term loans payable were at $\mathcal{P} 4.5$ billion, as compared to $\mathcal{P} 4.0$ billion at the end of 2016. Additional short-term loans were used to fund inventory purchases.

As of March 31, 2017, long-term debt was at $\mathcal{P} 1.8$ billion from $\mathcal{P} 2.0$ billion at the end of 2016. The decrease in long-term debt reflects principal repayments as well as the reclassification into current portion of long term debt of repayments due on the following within the next 12 months: (a) P2.0 billion syndicated term loan facility entered into by the Group on May 8, 2013; (b) P1.0 billion term loan facility entered into on September 14, 2015; and (c) a $\mathcal{P} 400.0$ million term loan facility entered into on October $15,2015$.

# SSI GROUP, INC. AND SUBSIDIARIES <br> NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS 

## 1. Corporate Information

SSI Group, Inc. was registered with the Philippine Securities and Exchange Commission (SEC) on April 16, 2007 as Casual Clothing Specialists, Inc. (the Company). Its primary purpose was to carry on a general mercantile and commercial business of importing, buying, acquiring, holding, selling or otherwise disposing of and dealing in any goods, wares, merchandise and commodities of all kinds, and products, natural or artificial, of the Philippines or other countries, which are or may become articles of commerce, without, however, engaging in the manufacture of foods, drugs, and cosmetics. The Company was formerly one of the subsidiaries of Stores Specialists, Inc. (SSI).

## Corporate Restructuring

The Tantoco Family undertook a restructuring of its ownership over SSI and subsidiaries (collectively referred to as the "Group") in order to convert the Company into the new holding company of the Group. The Company is principally owned and controlled by the Tantoco Family members, directly or through their respective holding companies. The Group's former holding company, SSI, was converted into a wholly-owned operating subsidiary of the Company. SSI remains as primary franchisee under the Group's brand agreements and also acts as the principal shareholder of all of the operating subsidiaries.

Prior to the restructuring activities undertaken, the Company was owned $100 \%$ by SSI and its nominees. On April 3, 2014, the Philippine SEC approved the increase in authorized capital stock of the Company from $£ 200.00$ million divided into $2,000,000$ shares with par value of P 100.00 per share, to $\$ 3.00$ billion divided into $30,000,000$ shares with par value of $£ 100.00$ per share. Of the increased authorized capital stock of the Company, SSI subscribed to $7,000,000$ shares for a consideration of $£ 700.00$ million, of which $£ 175.00$ million was paid and $£ 525.00$ million remained outstanding as subscription receivables. On April 9, 2014, all of the shares held by SSI in the Company were sold to the Tantoco Family via a deed of sale and a deed of assignment of subscription rights. As a result of the share sale, the Company ceased to be a subsidiary of SSI. In turn, on April 14, 2014, the Company purchased all of the shares held by the Tantoco Family in SSI for a total consideration of $£ 2.20$ billion. This transaction resulted in SSI becoming a whollyowned subsidiary of the Company.

Using the proceeds of the sale of its shares in SSI to the Company, the Tantoco Family settled the outstanding $P 525.00$ million subscription payable on the $7,000,000$ shares in the Company previously subscribed by SSI and now owned by the Tantoco Family. On April 10, 2014, the Tantoco Family further subscribed to an additional unissued 12,171,629 shares in the Company, which amounted to $£ 1.20$ billion. In addition, on April 15, 2014, the Tantoco Family made a deposit for future subscription to the $5,000,000$ shares in the Company for a consideration of E500.0 million.

The above corporate restructuring resulted in the Company being wholly owned by members of the Tantoco Family, which in turn gives the Tantoco Family ownership and control of the Group. As of April 2014, the above restructuring was deemed legally complete.

On January 10, 2014, Casual Clothing Retailers, Inc. was incorporated for the purpose of continuing the businesses of the Company, including operation of the brands under the Group's arrangements with GAP Inc.

On June 18, 2014, certain resolutions were approved by the Board and shareholders of the Company, including, among others: (1) change in its corporate name from "Casual Clothing Specialists, Inc." to "SSI Group, Inc."; (2) change in its primary purpose as a retail company to that of a holding company; (3) increase in its authorized capital stock from P 3.0 billion to $\pm 5.0$ billion; (4) reduction of par value of its shares from P 100.00 per share to P 1.00 per share; and (5) increase in the number of members of its board of directors from five to nine. These changes, including the appropriate amendments to its articles of incorporation, were submitted to the Philippine SEC on July 30, 2014 and were subsequently approved on August 29, 2014. Upon approval, the Company has an authorized capital stock of $P 5,000,000,000$ divided into $5,000,000,000$ shares with a par value of P 1 per share.

On November 7, 2014, SSI Group, Inc. completed its initial public offering of 695,701,530 common shares with the Philippine Stock Exchange (PSE).

The registered office and principal place of business of the Company is 6/F Midland Buendia Building, 403 Senator Gil Puyat Avenue, Makati City.

The interim condensed consolidated financial statements were reviewed and recommended for approval by the Audit Committee to the Board of Directors (BOD) on May 9, 2017. The same interim condensed consolidated financial statements were approved and authorized by the BOD on the same date.

## 2. Basis of Presentation, Preparation and Consolidation and Summary of Significant Accounting Policies

## Basis of Presentation

As discussed in Note 1, the Company entered into a sale and purchase of shares transactions with SSI and the members of the Tantoco Family resulting in the Company becoming the holding company of the Group. The Company and its subsidiaries, now comprising "the Group", are under common control of the Tantoco Family before and after the sale and purchase transactions in April 2014. The said transactions were treated as a reorganization of entities under common control and were accounted for similar to pooling-of-interests method. Accordingly, the interim condensed consolidated financial statements of the Company have been prepared as a continuation of the consolidated financial statements of SSI, the former holding company of the Group.

## Basis of Preparation

The unaudited interim condensed consolidated financial statements as of March 31, 2017 and for the three-month periods ended March 31, 2017 and 2016 have been prepared in accordance with Philippine Accounting Standard (PAS) 34, Interim Financial Reporting. The unaudited interim condensed consolidated financial statements do not include all of the information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Company's annual consolidated financial statements as at December 31, 2016.

## Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Company and the following wholly owned subsidiaries:

${ }^{3}$ On July 16, 2015, SSI caused the incorporation of SKL, a wholly owned subsidiary, under the territory of the British Virgin Islands (BVI)
${ }^{4}$ MPC was registered to the SEC on February 1, 2017 and started commercial operations on April 1, 2017
All subsidiaries, except for FSHI, SII and SKL, are in the retail business and hold exclusive distributorship of certain brands.

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as of March 31, 2017 and for the three months ended March 31, 2017 and 2016. Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date when such control ceases. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Company and to the non-controlling interests (NCI), even if this results in the
non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Company's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

## Common control business combinations and group reorganizations

Where there are group reorganizations and business combinations in which all the combining entities within the Group are ultimately controlled by the same ultimate parent (i.e., controlling shareholders) before and after the business combination and the control is not transitory (business combinations under common control), the Group accounts for such group reorganizations and business combinations similar to a pooling-of-interests method. The assets and liabilities of the acquired entities and that of the Company are reflected at their carrying values at the stand-alone financial statements of the investee companies. The difference in the amount recognized and the fair value of the consideration given is accounted for as an equity transaction, i.e., as either a contribution or distribution of equity. Further, when a subsidiary is disposed in a common control transaction without loss of control, the difference in the amount recognized and the fair value of consideration received, is also accounted for as an equity transaction.

The Group records the difference as "Equity reserve" and is presented as a separate component of equity in the consolidated balance sheet. Comparatives shall be restated to include balances and transactions as if the entities have been acquired at the beginning of the earliest period presented in the consolidated financial statements, regardless of the actual date of the combination.

## Changes in Accounting Policies and Disclosures

The Group applied for the first time certain standards and amendments, which are effective for annual periods beginning on or after January 1, 2017. Except as otherwise indicated, the Group does not expect the adoption of these new and amended standards to have a significant impact on the Group's financial statements.

The nature and impact of each new standard and amendment is described below:

## Effective beginning on or after January 1, 2017

Amendment to PFRS 12, Clarification of the Scope of the Standard (Part of Annual Improvements to PFRSs 2014-2016 Cycle)
The amendments clarify that the disclosure requirements in PFRS 12, other than those relating to summarized financial information, apply to an entity's interest in a subsidiary, a joint venture or an associate (or a portion of its interest in a joint venture or an associate) that is classified (or included in a disposal group that is classified) as held for sale.

## Amendments to PAS 7, Statement of Cash Flows, Disclosure Initiative

The amendments to PAS 7 require an entity to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes (such as foreign exchange gains or losses). On initial application of the amendments, entities are not required to provide comparative information for preceding periods. Early application of the amendments is permitted.

Application of amendments will result in additional disclosures in the 2017 consolidated financial statements of the Group.

Amendments to PAS 12, Income Taxes, Recognition of Deferred Tax Assets for Unrealized Losses

The amendments clarify that an entity needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of that deductible temporary difference. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount.

Entities are required to apply the amendments retrospectively. However, on initial application of the amendments, the change in the opening equity of the earliest comparative period may be recognized in opening retained earnings (or in another component of equity, as appropriate), without allocating the change between opening retained earnings and other components of equity. Entities applying this relief must disclose that fact. Early application of the amendments is permitted.

## 3. Reorganization Involving Entities Under Common Control

As discussed in Notes 1 and 2, as a result of the sale and purchase of shares transactions among the Company, SSI and the members of the Tantoco Family, the Company became the holding company of the Group. The reorganization was accounted for by the Company similar to pooling-of-interests method.

Under the pooling-of-interests method:

- The assets and liabilities of the combining entities are reflected at their carrying amounts;
- No adjustments are made to reflect fair values, or recognize any new assets or liabilities at the date of the reorganization;
- No 'new' goodwill is recognized as a result of the reorganization;
- Any difference between the consideration transferred and the net assets acquired is reflected within equity under "Equity reserve";
- The income statement in the year of reorganization reflects the results of the combining entities for the full year, irrespective of when the reorganization took place; and
- Comparatives are presented as if the entities had always been combined only for the period that the entities were under common control.

The equity reserve recognized in the statement of changes in equity as of March 31, 2017 represents the difference between the total consideration paid by the Company for its acquisition of SSI and the capital stock of SSI as shown below:

| Capital stock of SSI | (705,014,815 |
| :--- | ---: |
| Capital stock of SGI | $(2,242,162,541)$ |
| Equity reserve | $(\mathbf{P} 1,537,147,726)$ |

Prior to the reorganization the balance of the equity reserve represents the difference between the legal capital of the Company and SSI.

## 22. Risk Management Objectives and Policies

The principal financial instruments of the Group are cash and cash equivalents and short-term and long-term loans. The main purpose of these financial instruments is to anticipate future fund requirements of the Group. The Group has various other financial assets and liabilities such as trade and other receivables, trade and other payables, short-term loan payable and long-term debt, amounts owed to/by related parties and security deposits and construction bonds which arise directly from its operations.

The main risks arising from the financial instruments of the Group are credit risk, foreign currency risk and liquidity risk. The Group's management reviews and approves policies for managing each of these risks and they are summarized below. The Group also monitors the market price risk arising from all financial instruments. The magnitudes of these risks that have arisen over the year are discussed below.

## Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group trades only with recognized, creditworthy third parties, mostly with credit card companies. Trade receivables from third parties are monitored on an on-going basis with the result that the exposure of the Group to bad debts is not significant. There is no allowance for impairment of receivables since the Group expects to fully realize its receivables from its debtors. With respect to credit risk from other financial assets of the Group, which is mainly comprised of cash in banks, short-term investments, amounts owed by related parties, trade and other receivables and security deposits, the exposure of the Group to credit risk arises from the default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

There is no significant concentration of credit risk in the Group.

The aging analyses of financial assets that are past due but not impaired are as follows:

## Capital Management

The primary objective of the Group is to maintain a strong credit rating and healthy capital ratios to support its business and maximize shareholder value.

The Group manages its capital structure and makes adjustments to it based on changes in economic and business conditions. To maintain or adjust the capital structure, the Group may consider paying dividends to stockholders, returning capital to stockholders, or issuing new shares of stocks. No major changes were made on the objectives, policies, or processes during the three months ended March 31, 2017 and year ended December 31, 2016. Capital includes equity as shown in the consolidated balance sheet.

As disclosed in Note 14, the Group is required by their creditors to maintain a debt-to-equity ratio and debt-service coverage ratio. The Group, thus, monitors capital on the basis of debt-to-equity ratio which is calculated as total liabilities divided by total equity. The Company includes within debt all interest-bearing short-term and long-term liabilities. These externally imposed capital requirements have been complied with as of March 31, 2017.

## 23. Fair Value of Financial Instruments

Set out below is a comparison by category of carrying amounts and fair values of the Group's financial instruments:

|  | March 31, 2017 (Unaudited) |  | December 31, 2016 (Audited) |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Carrying <br> Amounts | Fair Values | Carrying <br> Amounts | $\begin{array}{r} \text { Fair } \\ \text { Values } \end{array}$ |
| Financial Assets |  |  |  |  |
| Loans and receivables Security deposits and construction bonds | P1,059,438,144 | P1,009,458,893 | £1,033,824,312 | ¢983,845,061 |
| Financial Liabilities |  |  |  |  |
| Other financial liabilities Long-term debt | P2,693,105,758 | P2,830,224,520 | ②,916,439,090 | £3,053,557,852 |

The following method and assumptions are used to estimate the fair value of each class of financial instruments:

Cash and cash equivalents, trade and other receivables, amounts owed by/to related parties, current portion of security deposits (presented under prepayments and other current assets), tenants' deposits, trade and other payables and short-term loans
The carrying values of these financial instruments approximate their fair values due to the shortterm maturity, ranging from one to twelve months.

## Security deposits and construction bonds

The fair values of security deposits are based on the discounted value of future cash flows using the applicable market interest rates. Discount rates ranging from $2.42 \%$ to $4.10 \%$ and $2.57 \%$ to $3.98 \%$, were used in calculating the fair value of the Group's refundable deposits as of March 31, 2017 and December 31, 2016, respectively.

## Long-term debt

The fair value of long-term debt is based on the discounted value of future cash flows using the applicable market interest rates. Discount rates ranging from $2.97 \%$ to $4.25 \%$ and $3.43 \%$ to $5.59 \%$ were used in calculating the fair value of the Group's long-term debt as of March 31, 2017 and December 31, 2016, respectively.

## Fair Value Hierarchy

The Group uses the following hierarchy in determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;
- Level 3-Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The Group's security deposits and construction bonds and long-term debt are classified as Level 3.
As at March 31, 2017 and December 31, 2016 the Group does not have financial instruments with fair values determined using inputs that are classified under Level 1 and 3.

For the three months ended March 31, 2017 and years ended December 31, 2016, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurements.

## 24. Contracts and Commitments

## Leases

The Group leases its office space and certain store outlets used in its operations for lease terms ranging from two to three years. Rental payments on certain outlets are based on a fixed basic monthly rate plus a certain percentage of gross sales, while other store outlets and office spaces are based on fixed monthly rates. Rentals charged to operations amounted to $£ 567.6$ million and P569.2 million, for the three months ended March 31, 2017 and 2016, respectively (see Notes 15, 16 and 17).

Of the total rent expense, P 116.8 million and P 94.0 million for the three months ended March 31 , 2017 and 2016, respectively, pertain to contingent rent of some stores based on percentage ranging from $3 \%$ to $6 \%$ of total merchandise sales.

The Group has paid security deposits for the store outlets and office spaces with carrying amounts of $£ 1,059.4$ million and $£ 1,033.8$ million as of March 31, 2017 and December 31, 2016, respectively, which are refundable upon complete turnover of the leased area. The present value of these deposits was computed using the discount rates prevailing at the inception date of the lease, ranging from $1.24 \%$ to $7.15 \%$. Interest income recognized from these security deposits amounted to $£ 0.9$ million and $\mp 0.7$ million, for the three months ended March 31, 2017 and 2016, respectively.

## Group as lessor

In 2014, the Group leased out portions of the store spaces and parking space in Central Square for a lease term ranging from one to three years. Rental income on these spaces is based on a fixed basic monthly rate plus a certain percentage of gross sales. Deposits received from tenants amounted to $£ 34.8$ million and $£ 34.8$ million as of March 31, 2017 and December 31, 2016, respectively, pertaining to deposits on the leased space.

In 2015, the Group subleased its leased space in NAIA Terminal 3 for a lease term of one year or less. Rental income on these spaces is based on a fixed basic monthly rate plus a certain percentage of gross sales.

Rental income recognized on these spaces amounted to P 12.9 million and P 16.7 million, for the three months ended March 31, 2017 and 2016, respectively.

## 25. Segment Reporting

The Group has determined that it is operating as one operating segment. Based on management's assessment, no part or component of the business of the Group meets the qualifications of an operating segment as defined by PFRS 8 .

The Company's store operations is its only income generating activity and such is the measure used by the chief operating decision maker in allocating resources.

The Company derives its primary income from the sales of merchandise to external customers and is the only basis for segment reporting purposes. Sales are reported on an entity-wide basis.
These information are measured using the same accounting policies and estimates as the Group's consolidated financial statements.

The table below sets out revenue from external customers by category for the three months ended March 31, 2017 and 2016 (amounts in millions):

|  | March 31, <br> 2017 <br> (Unaudited) | March 31, <br> 2016 <br> (Unaudited) |
