Net Sales

SSI Group, Inc. (the "Company or the "Group") generated net sales of ₱4.6 billion during the first three months of 2018, an increase of 7.8% as compared to the year ago period. During the first quarter, the Group saw healthy topline and same-store sales performance from its luxury and bridge, casual, fast fashion and others categories.

SSI experienced robust growth in net sales during the first quarter driven by strong consumer demand. This is despite the fact that the Group continues to operate within a highly competitive environment and that the Group's total selling space declined by 7.4%.

As of March 31, 2018, the Group's store network consisted of 626 stores covering 126,575 square meters, which is a 10,090 square meters or 7.4% year-on-year net decline. During the quarter, the Group opened 10 new stores covering approximately 435 square meters while at the same time closing or downsizing 22 stores covering approximately 3,346 square meters.

The Group's brand portfolio was composed of 108 brands, with no brands added or discontinued during the quarter.

[1] Core Net Income is derived by excluding the effect of non-recurring write-offs due to store closures and write-offs of expiring NOLCO from the Group's net income
[2] Calculated as the sum of Short-term loans payable, Current portion of long-term debt and Long-term debt
[3] Calculated as Total Debt minus Cash

As of March 31, 2018, the Group operated 1 store in Guam which contributed de minimis sales to the Group's net sales for the period.

Gross Profit

For the quarter ended March 31, 2018, gross profit amounted to ₱1.9 billion, a year-on-year decrease of 6.0%. Gross profit margin for the quarter was at 42.1% as compared to 48.3% during the same period last year. The decrease in gross profit margins reflects among others, the continuing impact of the weaker peso as well as efforts to reduce inventory levels during the period.

Operating Expenses

Total operating expenses during the first three months of the year amounted to ₱1.7 billion, a 0.9% year-on-year decline. As a percentage of net sales, total operating expenses was at 37.2%, a significant improvement from 40.1% over the same period last year. SSI continues to reap the benefits of its store rationalization program and the Group's focus on maximizing scale and improving cost efficiencies.

Selling and distribution expenses for the quarter amounted to ₱1.4 billion, which is equivalent to 30.8% of net sales. This is an improvement over the same period last year when selling and distribution expenses were at ₱1.5 billion or 34.9% of sales. The 4.8% decrease was driven primarily by decreases in depreciation and amortization expense, which decreased 27.5% to ₱187.8 million, and in rent expense, which decreased 6.6% to ₱483.9 million.

General and administrative expenses, however, increased to ₱292.4 million from ₱236.8 million during the same period last year, or a 23.5% increase. This is due primarily to an increase in personnel costs, which grew 47.3% to ₱141.8 million as the Group expanded its growing e-commerce business group during the 2nd quarter of 2017.

As result of the foregoing, `operating income for the quarter amounted to ₱224.4 million, as compared to ₱332.4 million same period last year.

Other Income (Charges)

For the first three months of 2018, the Group incurred other charges of ₱17.7 million, an 80.0% decline as compared to the same period last year. The decrease was due primarily to the divestment of the FamilyMart business in January 2018 and to a decrease in the write-offs related to store closures during the quarter.

The Group also booked rent income of ₱18.4 million during the quarter, a 43.1% increase compared to the same period last year. Rent income pertains to the leasing of retail spaces at Central Square, subleasing of store spaces at Kiss and Fly located at NAIA Terminal 3, and income derived from parking fees at Central Square.

Provision for Income Tax

For the quarter ended March 31, 2018, provision for income tax amounted to ₱73.8 million. This translates to an effective tax rate of 35.7% reflecting the impact of nontaxable income such as the Group's share in the net earnings of its associate and joint ventures as well as the interest income on the accretion of security deposits. The Group also wrote-off expiring net operating loss carry overs (NOLCO) amounting to ₱1.6 million during the quarter.

Net Income

As a result of the foregoing, net income for the first quarter of 2018 amounted to ₱132.9 million as compared to ₱134.9 million during the same period last year.

FINANCIAL CONDITION

As of March 31, 2018, the Group had consolidated assets of ₱18.5 billion, a decrease of 1.5% as compared to December 31, 2017.

Current Assets

As of March 31, 2018, the Group had consolidated current assets of ₱13.3 billion, a decrease of 1.4% as compared to December 31, 2017.

Cash

As of March 31, 2018, cash amounted to ₱1.5 billion, as compared to ₱1.7 billion at the end of 2017. The decrease reflects net payments of loans and related interest amounting to ₱92.9 million and payments of capital expenditures for store construction and renovations amounting to a total of ₱110.7 million. The Group also received a ₱40.0 million dividend from Samsonite Philippines, Inc. ("SPI") during the quarter.

Trade and Other Receivables

Trade and other receivables were at ₱714.4 million as of March 31, 2018 from ₱848.1 million at the end of 2017. The decrease was due mainly to decreases in trade receivables to ₱211.0 million, which consist primarily of receivables from credit card companies, and nontrade receivables to ₱310.6 million driven by collection of advertising and marketing support from principals. The Group also received dividends from SPI which were declared at the end of 2017.

Prepayments and other Current Assets

Prepayments and other current assets amounted to ₱1.5 billion as of March 31, 2018, as compared to ₱1.3 billion at the end of 2017. The increase was driven primarily by increases in supplies inventory to ₱554.3 million, advances to suppliers of merchandise to ₱383.7 million, input VAT to ₱227.5 million, and prepaid tax to ₱81.1 million.

Non-Current Assets

Investment in an Associate

Other Noncurrent Assets

As of March 31, 2018, other noncurrent assets were at ₱82.1 million, as compared to ₱99.9 million at the end of 2017. The decrease was attributable to a decline in miscellaneous deposits to ₱23.0 million, which pertain to deposits with contractors for the construction and renovation of stores.

Current Liabilities

As of March 31, 2018, the Group had consolidated current liabilities of ₱7.1 billion, as compared to ₱7.3 billion at the end of 2017.

Trade and Other Payables

Trade and other payables were at ₱1.4 billion as of March 31, 2018, as compared to ₱1.8 billion at the end of 2017. The 25.0% decrease was due primarily to a decrease in trade payables to ₱785.5 million, reflecting terms of merchandise deliveries during the period, and a decrease in accrued expenses to ₱95.6 million as a result of payments of expenses which were accrued at the end of 2017.

Short-term Loans Payable

As of March 31, 2018, short-term loans payable were at ₱4.4 billion, as compared to ₱4.2 billion at the end of 2017. Additional short-term loans were used primarily to fund inventory purchases during the period.

Non- Current Liabilities

Long-term Debt

As of March 31, 2018, long-term debt, inclusive of current portion, amounted to ₱1.7 billion from ₱2.0 billion at the end of 2017. The decrease reflects quarterly principal repayments on the Group's term loan facilities during the first quarter of the year.

Equity

Total equity as of March 31, 2018 was at ₱10.4 billion, a 1.3% increase as compared to end 2017. The increase in equity is due primarily to an increase in retained earnings, which reflects the Group's net earnings during the first quarter of the year.

SSI GROUP, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate Information

SSI Group, Inc. was registered with the Philippine Securities and Exchange Commission (SEC) on April 16, 2007 as Casual Clothing Specialists, Inc. (the Company). Its primary purpose was to carry on a general mercantile and commercial business of importing, buying, acquiring, holding, selling or otherwise disposing of and dealing in any goods, wares, merchandise and commodities of all kinds, and products, natural or artificial, of the Philippines or other countries, which are or may become articles of commerce, without, however, engaging in the manufacture of foods, drugs, and cosmetics. The Company was formerly one of the subsidiaries of Stores Specialists, Inc. (SSI).

On June 18, 2014, certain resolutions were approved by the Board and shareholders of the Company, including, among others: (1) change in its corporate name from “Casual Clothing Specialists, Inc.” to “SSI Group, Inc.”; (2) change in its primary purpose as a retail company to that of a holding company; (3) increase in its authorized capital stock from ₱3.0 billion to ₱5.0 billion; (4) reduction of par value of its shares from ₱100.00 per share to ₱1.00 per share; and (5) increase in the number of members of its board of directors from five to nine. These changes, including the appropriate amendments to its articles of incorporation, were submitted to the Philippine SEC on July 30, 2014 and were subsequently approved on August 29, 2014. Upon approval, the Company has an authorized capital stock of ₱5.00 billion divided into 5,000,000,000 shares with a par value of
₱1.00 per share.

On November 7, 2014, SSI Group, Inc. completed its initial public offering of 695,701,530 common shares with the Philippine Stock Exchange (PSE) (see Note 29).

The registered office and principal place of business of the Company is 6/F Midland Buendia Building, 403 Senator Gil Puyat Avenue, Makati City.

The interim condensed consolidated financial statements were reviewed and recommended for approval by the Audit Committee to the Board of Directors (BOD) on May 9, 2018. The same interim condensed consolidated financial statements were approved and authorized by the BOD on the same date.

2. Basis of Presentation, Preparation and Consolidation and Summary of Significant Accounting Policies

<u>Basis of Presentation</u>
As discussed in Note 1, the Company entered into a sale and purchase of shares transactions with SSI and the members of the Tantoco Family resulting in the Company becoming the holding company of the Group. The Company and its subsidiaries, now comprising “the Group”, are under common control of the Tantoco Family before and after the sale and purchase transactions in April 2014. The said transactions were treated as a reorganization of entities under common control and were accounted for similar to pooling-of-interests method. Accordingly, the interim condensed consolidated financial statements of the Company have been prepared as a continuation of the consolidated financial statements of SSI, the former holding company of the Group.

<u>Basis of Preparation</u>
The unaudited interim condensed consolidated financial statements as of March 31, 2018 and for the three-month periods ended March 31, 2018 and 2017 have been prepared in accordance with Philippine Accounting Standard (PAS) 34, *Interim Financial Reporting*. The unaudited interim condensed consolidated financial statements do not include all of the information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Company's annual consolidated financial statements as at December 31, 2017.

<u>Basis of Consolidation</u>
The consolidated financial statements comprise the financial statements of the Company and the following wholly owned subsidiaries:

Casual Clothing Retailers, Inc. (CCRI)	**–**	**100**	–	100
SKL International, Ltd. (SKL)	**–**	**100**	–	100

All subsidiaries, except for FSHI, SII and SKL, are in the retail business and hold exclusive distributorship of certain brands.

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as of March 31, 2018 and for the three months ended March 31, 2018 and 2017. Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date when such control ceases. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Group controls an investee if and only if the Group has:
- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:
- The contractual arrangement with the other vote holders of the investee

- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Company and to the non-controlling interests (NCI), even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Company's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Common control business combinations and group reorganizations
Where there are group reorganizations and business combinations in which all the combining entities within the Group are ultimately controlled by the same ultimate parent (i.e., controlling shareholders) before and after the business combination and the control is not transitory (business combinations under common control), the Group accounts for such group reorganizations and business combinations similar to a pooling-of-interests method. The assets and liabilities of the acquired entities and that of the Company are reflected at their carrying values at the stand-alone financial statements of the investee companies. The difference in the amount recognized and the fair value of the consideration given is accounted for as an equity transaction, i.e., as either a contribution or distribution of equity. Further, when a subsidiary is disposed in a common control transaction without loss of control, the difference in the amount recognized and the fair value of consideration received, is also accounted for as an equity transaction.

The Group records the difference as "Equity reserve" and is presented as a separate component of equity in the consolidated balance sheet. Comparatives shall be restated to include balances and transactions as if the entities have been acquired at the beginning of the earliest period presented in the consolidated financial statements, regardless of the actual date of the combination.

Changes in Accounting Policies and Disclosures
The Group applied for the first time certain standards and amendments, which are effective for annual periods beginning on or after January 1, 2018. Except as otherwise indicated, the Group does not expect the adoption of these new and amended standards to have a significant impact on the Group's financial statements.

The nature and impact of each new standard and amendment is described below:

Effective beginning on or after January 1, 2018

- PFRS 9, *Financial Instruments*. PFRS 9 reflects all phases of the financial instruments project and replaces PAS 39, *Financial Instruments: Recognition and Measurement*, and all previous versions of PFRS 9. The standard introduces new requirements for classification and measurement, impairment, and hedge accounting. Retrospective application is required but providing comparative information is not compulsory. For hedge accounting, the requirements are generally applied prospectively, with some limited exceptions.

  The Group is currently assessing the potential impact of adopting PFRS 9 in 2018.

- PFRS 15, *Revenue from Contracts with Customers*. PFRS 15 establishes a new five-step model that will apply to revenue arising from contracts with customers. Under PFRS 15, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in PFRS 15 provide a more structured approach to measuring and recognizing revenue.

The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under PFRSs. Either a full retrospective application or a modified retrospective application is required for annual periods beginning on or after January 1, 2018. Early adoption is permitted.

The Group is currently assessing the potential impact of adopting PFRS 15 in 2018.

- Philippine Interpretation IFRIC-22, *Foreign Currency Transactions and Advance Consideration.* The interpretation clarifies that, in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognizes the nonmonetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine a date of the transactions for each payment or receipt of advance consideration. Entities may apply the amendments on a fully retrospective basis. Alternatively, an entity may apply the interpretation prospectively to all assets, expenses and income in its scope that are initially recognized on or after the beginning of the reporting period in which the entity first applies the interpretation or the beginning of a prior reporting period presented as comparative information in the financial statements of the reporting period in which the entity first applies the interpretation.

  Since the Group's current practice is in line with the clarifications issued, the Group does not expect any effect on its consolidated financial statements upon adoption of this interpretation.

- Amendments to PFRS 2, *Share-based Payment, Classification and Measurement of Share-based Payment Transactions*
- Amendments to PFRS 4, *Insurance Contracts, Applying PFRS 9, Financial Instruments, with PFRS 4*
- Amendments to PAS 28, *Measuring an Associate or Joint Venture at Fair Value* (Part of *Annual Improvements to PFRSs* 2014 - 2016 Cycle)
- Amendments to PAS 40, *Investment Property, Transfers of Investment Property*

21. Risk Management Objectives and Policies

The principal financial instruments of the Group are cash and cash equivalents and short-term and long-term loans. The main purpose of these financial instruments is to anticipate future fund requirements of the Group. The Group has various other financial assets and liabilities such as trade and other receivables, trade and other payables, short-term loan payable and long-term debt, amounts owed to/by related parties and security deposits and construction bonds which arise directly from its operations.

The main risks arising from the financial instruments of the Group are credit risk, foreign currency risk and liquidity risk. The Group's management reviews and approves policies for managing each of these risks and they are summarized below. The Group also monitors the market price risk arising from all financial instruments. The magnitudes of these risks that have arisen over the year are discussed below.

Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group trades only with recognized, creditworthy third parties, mostly with credit card companies. Trade receivables from third parties are monitored on an on-going basis with the result that the exposure of the Group to bad debts is not significant. There is no allowance for impairment of receivables since the Group expects to fully realize its receivables from its debtors. With respect to credit risk from other financial assets of the Group, which is mainly comprised of cash in banks, short-term investments, amounts owed by related parties, trade and other receivables and security deposits, the exposure of the Group to credit risk arises from the default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

There is no significant concentration of credit risk in the Group.

Capital Management

The primary objective of the Group is to maintain a strong credit rating and healthy capital ratios to support its business and maximize shareholder value.

The Group manages its capital structure and makes adjustments to it based on changes in economic and business conditions. To maintain or adjust the capital structure, the Group may consider paying dividends to stockholders, returning capital to stockholders, or issuing new shares of stocks. No major changes were made on the objectives, policies, or processes during the three months ended March 31, 2018 and year ended December 31, 2017. Capital includes equity as shown in the consolidated balance sheet.

As disclosed in Note 14, the Group is required by their creditors to maintain a debt-to-equity ratio and debt-service coverage ratio. The Group, thus, monitors capital on the basis of debt-to-equity ratio which is calculated as total liabilities divided by total equity. The Company includes within debt all interest-bearing short-term and long-term liabilities. These externally imposed capital requirements have been complied with as of March 31, 2018.

22. **Fair Value of Financial Instruments**

Set out below is a comparison by category of carrying amounts and fair values of the Group's financial instruments:

	March 31, 2018 (Unaudited)		December 31, 2017 (Audited)	
	Carrying Amounts	**Fair Values**	Carrying Amounts	Fair Values
Financial Assets				
Loans and receivables				
Security deposits and construction bonds	**₱1,040,285,000**	**₱1,009,750,684**	₱1,019,838,784	₱1,004,948,318
Financial Liabilities				
Other financial liabilities				
Long-term debt	**₱1,745,853,053**	**₱2,136,616,001**	₱2,610,874,298	₱2,389,901,798

The following method and assumptions are used to estimate the fair value of each class of financial instruments:

Cash and cash equivalents, trade and other receivables, amounts owed by/to related parties, current portion of security deposits (presented under prepayments and other current assets), tenants' deposits, trade and other payables and short-term loans
The carrying values of these financial instruments approximate their fair values due to the short-term maturity, ranging from one to twelve months.

Security deposits and construction bonds
The fair values of security deposits are based on the discounted value of future cash flows using the applicable market interest rates. Discount rates ranging from 3.29% to 4.61% and 1.91% to 5.00%, were used in calculating the fair value of the Group's refundable deposits as of March 31, 2018 and December 31, 2017, respectively.

Long-term debt
The fair value of long-term debt is based on the discounted value of future cash flows using the applicable market interest rates. Discount rates ranging from 3.07% to 4.16% and 4.08% to 6.36% were used in calculating the fair value of the Group's long-term debt as of March 31, 2018 and December 31, 2017, respectively.

Fair Value Hierarchy
The Group uses the following hierarchy in determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The Group's security deposits and construction bonds and long-term debt are classified as Level 3.

As at March 31, 2018 and December 31, 2017 the Group does not have financial instruments with fair values determined using inputs that are classified under Level 1 and 3.

For the three months ended March 31, 2018 and years ended December 31, 2017, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurements.

23. Contracts and Commitments

Leases

The Group leases its office space and certain store outlets used in its operations for lease terms ranging from two to three years. Rental payments on certain outlets are based on a fixed basic monthly rate plus a certain percentage of gross sales, while other store outlets and office spaces are based on fixed monthly rates. Rentals charged to operations amounted to ₱532.6 million and ₱567.6 million, for the three months ended March 31, 2018 and 2017, respectively (see Notes 14, 15 and 16).

Of the total rent expense, ₱81.4 million and ₱116.8 million for the three months ended March 31, 2018 and 2017, respectively, pertain to contingent rent of some stores based on percentage ranging from 3% to 6% of total merchandise sales.

The Group has paid security deposits for the store outlets and office spaces with carrying amounts of ₱1,040.8 million and ₱1,029.9 million as of March 31, 2018 and December 31, 2017, respectively, which are refundable upon complete turnover of the leased area. The present value of these deposits was computed using the discount rates prevailing at the inception date of the lease, ranging from 1.24% to 7.15%. Interest income recognized from these security deposits amounted to ₱0.9 million and ₱0.9 million, for the three months ended March 31, 2018 and 2017, respectively.

Group as lessor

In 2014, the Group leased out portions of the store spaces and parking space in Central Square for a lease term ranging from one to three years. Rental income on these spaces is based on a fixed basic monthly rate plus a certain percentage of gross sales. Deposits received from tenants amounted to ₱33.8 million and ₱34.8 million as of March 31, 2018 and December 31, 2017, respectively, pertaining to deposits on the leased space.

In 2015, the Group subleased its leased space in NAIA Terminal 3 for a lease term of one year or less. Rental income on these spaces is based on a fixed basic monthly rate plus a certain percentage of gross sales.

Rental income recognized on these spaces amounted to ₱18.4 million and ₱12.9 million, for the three months ended March 31, 2018 and 2017, respectively.

24. **Segment Reporting**

The Group has determined that it is operating as one operating segment. Based on management's assessment, no part or component of the business of the Group meets the qualifications of an operating segment as defined by PFRS 8.

The Company's store operations is its only income generating activity and such is the measure used by the chief operating decision maker in allocating resources.

The Company derives its primary income from the sales of merchandise to external customers and is the only basis for segment reporting purposes. Sales are reported on an entity-wide basis. These information are measured using the same accounting policies and estimates as the Group's consolidated financial statements.

The table below sets out revenue from external customers by category for the three months ended March 31, 2017 and 2016 (amounts in millions):
